Course: **CS-465 AI-Lab**   **Fall 2021**

Resource Person: Ahmad Farooq   **Lab Test – 3**

Total Points: 10   **Time Allowed: 20 Minutes**

Question-02   **Marks: [10]**

You're requested to write a code:

1. Write a method **take_input()** which ask user about his name, age, phone number and qualification.
2. Write a method **write_file()** to create a file named as "lab_test.txt" and write user's information with appropriate message.
3. Use exception handling where needed. Pass arguments to method(s) if needed.
4. Create a main method to call above methods.

Instructions:

1. Create a python file called **YouRollNumber.py e.g., 14232432.py**
2. Submit python file only.

Note: No late submissions will be accepted.
